Sir

I have the honor to state that the City Magistrate of Bangalore and the District Medical Officer of the District were requested to inspect jointly the marginally noted three Mills in the Bangalore City and to submit their report for the year 1913 as required by Government Order No. 853-69-J dated 29th October 1903.

Copies of the notes of inspection made by them on the 9th 11th 13th and 13th February 1914 are herewith submitted.

(1) The Bangalore Spinning & Manufacturing Co.
(2) Bangalore Cotton, Woollen & Silk Mills Co.
(3) The City Brick & Tile Works.

2. The defects observed by the District Medical Officer regarding the drainage in the Mysore Spinning and Manufacturing Co. and those in re (1) Latrine arrangement (2) General Sanitation (3) Drainage in the Brick and Tile works have been communicated to the Managers of the Companies concerned in view to get the defects rectified. They have also been requested to communicate to me the action taken thereon.

Statement in Form A accompanies.

Inspection Notes.

Inspected the City Brick and Tile Works on the 12th Feby. 1914 along with the District Medical Officer. Encls 6 leaves 55-13 Fr

The Book in form B. contains about 56 certificates. There are still some more children who are to be certified . Instructions have been given to get all the children below 14 certified early.

Register C. shows that there are 157 children as it did during the last inspection. But many out of these number have become adults having attained the age of 14 and upwards and many have left. There seems to be new admissions since 28-8-13 the date of admission of the last child in this register. But none of the new names are added This omission appears to be due to the company not engaging the coolies themselves but letting work on contract. Instructions have been given to get the register up to date.

Register D. According to the three registers maintained by the contractors for each department, there are only 138 children and there are some blanks here and there. These blanks are said to be filled in when there are new admissions. Instructions ahve been given not to leave such blanks.

Register E. There are three registers just like the D. Register,, maintained by the contrater the total no. of women being only 35. The interval allowed is still the same as before for 10 hours work. The rest of 22 minutes in addition to one hour now allowed should be allowed.

Form A. showing the sanitary condition and other particulars is hereto attached. The District Medical Officer's letter No.380 dated the 14-2-1914 with its enclosure is also appended.

Inspected the Bangalore Woollen, Cotton, and Silk Mills Co, Ltd, on the 11th February 1914 with the District Medical Officer.

Register C. shows that there are 603 children whereas there are only 242 according to the Register D. This appears to have been due to the Register C having not been rewritten when several children have left or become adults. Instructions have been given to get this Register rewritten chronologically i.e. according to the date of admission of each child.

Form A. showing the sanitary conditions and other particulars is hereto attached . The District Medical Officer's letter ~~dated~~ No. 380 dated 14-2-1914 with its enclosure is als appended.

Sir,

I have the honor to submit the following report on the working of the factories Regulation and the rules framed thereunder for the year 1913.

The only factory in the District is situated at Hunsur and is designated " MATHESON'S COFFEE WORKS AND SAW MILLS ". In addition to curing coffee and for sawing wood, the machinery is also used for crushing bones for purposes of manure. The machinery is worked by steam power.

The daily average number of operatives employed during the year under report was

Males 33		CHILDREN	
Females 14	Males	14	Females 9

Total 70

The prescribed working hours are for men 7 to 12 A.M. and 1 to 5 P.M; for women 7 to 12 A.M. and 1 to 5 P.M: and for children 8 to 12 A.M; and 2 to 5 P.M;.

Sunday is observed as a Holiday and half holiday is given to the operatives on Thursday. Thus the coolies work for only 5½ days in a week.

Children under 8 years are not employed in the works.

A few men are employed in working machinery; but the majority of the coolies are employed in cooly work. The moving parts of the machinery have proper protection.

There is adequate supply of water for the coolies.

The latrine is kept clean.

The prescribed returns are being regularly submitted to the District Magistrate.

4

During the year under report a girl sustained a fall on 23rd October 1913 from the bone mill platform and death ensued as a consequence.

I have the honor to be,

Sir,

With reference to your letter No.J.3142/Legis.55-13-9 dated 18th instant requesting to report the number of hands employed by the Tobacco Factory in the Bowringpet Town and enquiring why that Factory should not be brought under the operation of the Mysore Factories Regulation, I have the honor to state that there are two factories now in that Town viz, (i) the South Indian Tobacco Manufacturing Company and (ii) the Oriental Tobacco Manufacturing Company. In the former, the maximum number employed is 35 and the minimum 20 while in the latter 45 and 35 respectively.

2. The number employed in both the factories being less than the number prescribed in clause 1 (e) of section 3 of the Regulation, they have not been brought under the operation of the regulation.

2. The same six Factories noted in the last year's report continued to work during the year under report. Of these six factories two are cotton pressing and the rest cotton ginning.

3. *Nature and amount of the moving power.*—All the factories are worked by steam with horse power varying from 16 B. H. P. and 146 I. H. P.

Period of work.—The number of working hours in the factories varies from 9 to 11 hours with midday stoppages of 1½ hours in each.

4. *Operatives.*—No children under nine years of age were employed in any of the factories and the average number of adult male and female operatives are shown in the appended statement.

5. *Inspections.*—The factories were once inspected by the Amildar Magistrate and once by the Assistant Commissioner and 1st Class Magistrate, Davangere, during the calendar year.

6. The inspection reports disclose that the marginally noted factories have not provided sufficient latrines and urinals for the use of the operatives. Orders have been issued to provide sufficient number of them very early.

1. The Cotton Press Factory of South India and Mysore Manufacturing Co., Ltd.
2. Basappa and R. Hanumantappa Ginning Factory.
3. Mahalakshmi Ginning Facto
4. Davangere Ginning Factory.

7. *Water supply, etc.*—Water is supplied to the factories from wells and it is reported that the supply is sufficient. Sanitation and ventilation were generally satisfacto

8. *Holidays.*—Sundays are observed as holidays in all the factories.

9. *Prosecutions.*—There were no prosecutions during the year under report.

I have the honor to state that the City Magistrate of Bangalore and the District Medical Officer of the District were requested to inspect jointly the marginally noted three Mills in the Bangalore City and to submit their report for the year 1913, as required by Government Order No. 853-69—J., dated 29th October 1903, copies of the notes of inspection made by them on the 9th, 11th, 12th and 13th February 1914, are herewith submitted.

3. The City Brick and Tile Works.

2. The defects observed by the District Medical Officer regarding the drainage in the Mysore Spinning and Manufacturing Company and those *in re* (1) Latrine arrangement, (2) General Sanitation, (3) Drainage in the Brick and Tile Works have been communicated to the Managers of the Companies concerned in view to get the defects rectified. They have also been requested to communicate to me the action taken thereon.

Statement in Form A accompanies.

INSPECTION NOTES.

By B. S. Ranoji Row, Esq., City Magistrate, Bangalore.

Inspected the City Brick and Tile Works on the 12th February 1914, along with the District Medical Officer.

The book in Form B contains about 56 certificates. There are still some more children who are to be certified. Instructions have been given to get all the children below 14 certified early.

Register C.—Shows that there are 157 children as it did during the last inspection. But many out of these number have become adults having attained the age of 14 and upwards and many have left. There seems to be new admissions since 28th August 1913 the date of admission of the last child in this register. But none of the new names are added. This omission appears to be due to the Company not engaging the coolies themselves but letting work on contract. Instructions have been given to get the register up to date.

Register D.—According to the three registers maintained by the contractors for each department, there are only 138 children and there are some blanks here and there. These blanks are said to be filled in when there are new admissions. Instructions have been given not to leave such blanks.

Register E.—There are three registers just like the D Register maintained by the contrator, the total number of women being only 35. The interval allowed is still the same as before for 10 hours work. The rest of 22 minutes in addition to one hour now allowed should be allowed.

Form A.—Showing the sanitary condition and other particulars is hereto attached. The District Medical Officer's letter No. 380, dated the 14th February 1914, with its enclosure is also appended

14-2-1914.

B. S. RANOJI ROW,
City Magistrate.

Inspected the Mysore Spinning and Manufacturing Company, Limited, Mills on the 13th February 1914, with the District Medical Officer.

The Registers are kept up to date.

Form A.—Showing sanitary condition and other particulars is hereto attached. The District Medical Officer's letter No. 380, dated 14th February 1914, with its enclosure, is also appended.

B. S. RANOJI ROW,
City Magistrate.

No. J. 4102 9—Legis. 55-13 11, dated 28th May 1915.

Inspected the Bangalore Woollen, Cotton and Silk Mills Company, Limited, on the 11th February 1914, with the District Medical Officer.

Register C.—Shows that there are 603 children, whereas there are only 242 according to the Register D. This appears to have been due to the Register C having not been re-written when several children have left or become adults. Instructions have been given to get this Register rewritten chronologically, *i. e.*, according to the date of admission of each child.

Form A.—Showing the sanitary conditions and other particulars is hereto attached. The District Medical Officer's letter No. 380, dated 14th February 1914, with its enclosure, is also appended.

B. S. RANOJI ROW,
City Magistrate.

No. 202, dated 3rd February 1914, from P. F. Bowring, Esq., J. P., Deputy Commissioner, Kolar District, to K. R. Srinivasaiengar, Esq., M.A., Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, Bangalore.

I have the honor to state that the Sugar Factory at Goribidnur, as stated in the last year's report, is the only factory in this district, coming under the purview of the Factories Regulation and the Rules thereunder. But it is reported that this factory has not been working since March 1913.
